

Enhance™ Tri-Purpose Cutting Oil 110

Description:

Enhance™ Tri-Purpose Cutting Oil 110 is a high-performance, multi-purpose product formulated to perform the functions of a cutting oil, hydraulic fluid, and machine lubricant in one. It is chlorine-free, non-staining and non-corrosive. The multi-purpose performance eliminates the need for a machine lubricant, which could contaminate the cutting fluid. This product is resistant to foaming and contains a highly effective anti-mist agent.

Applications:

This fluid is recommended for use in a broad range of machining applications on non-ferrous and ferrous metals where the machining requirements range from light to moderately severe. This product is particularly useful for machining stainless steels and other hard steels. It is also ideal for automatic screw machines.

Typical Properties:

Benefits:

- Non-Staining
- Extends Tool Life
- Effective Rust Protection
- Effective Corrosion Protection
- Excellent for a Wide Variety Of Metals
- Reduces Oil Mist in High Speed Machine Tools
- Chlorine Free
- Low Odor

Enhance™ Tri-Purpose Cutting Oil	
SAE Grade	110
Appearance	Pale Yellow
Color	0.5
API Gravity	32.5
Specific Gravity	0.8621
Viscosity @ 40°C, cSt	31.5 °C
Viscosity @ 100°C, cSt	5.64 °C
Viscosity Index	119
Flash Point	405 °F
Copper Strip Corrosion	1b
